A few Bible facts from our ministry partners at Advance Global Literature:

- Many pastors, Christian leaders, & lay people in India have no libraries, resources, or Bible study tools.
- Many believers don't even have a Bible.
- With over a billion people, India has the second largest English speaking population in the world.
- Many private schools in India are English Medium Schools, creating a significant need for Bibles, Christian books, Encyclopedia sets, English Dictionaries, National Geographic Magazines, & other study tools in English.
